Notice regarding an individual infected with the novel coronavirus

One of our employees at the Tokyo Branch Office (6-10-1 Ginza, Chuo-ku, Tokyo) has been found to be infected with the novel coronavirus on Monday, July 19.

The said employee developed a slight fever on Wednesday, July 14 while working from home. A PCR test was then performed on Thursday, July 15, and the result was confirmed to be positive on Monday, July 19. The employee is now resting at home.

An interview carried out by the public health center confirmed that there was one close contact., The person in question will take a PCR test today in accordance with the instructions given by the public health center.

In response to this, we will promptly conduct disinfection work at the office area where the said employee has used.

Our group companies are committed to continue to prevent the spread of infection by wearing masks, washing hands frequently, using ZOOM, etc. as an alternative to meeting and training sessions at the office, maintaining social distance when using reception rooms, etc., restricting business travel, introducing staggered working hours, and increasing telecommuting, etc.

We apologize for any concerns this may have caused to stakeholders. Thank you for your understanding.
